

# Let's Talk Math

I notice that...

I wonder if...

I predict \_\_\_\_\_ because...

I know \_\_\_\_\_ because.

First, I \_\_\_\_\_ because...

I tried \_\_\_\_\_ and what happened was...

A characteristic of this is...

\_\_\_\_\_ reminds me of \_\_\_\_\_ because...

One thing that makes \_\_\_\_\_ and \_\_\_\_\_ the same/different is...

I agree because...

My strategy is like yours because...

This solution makes sense because...

I disagree because...

The solution might not work because...

Instead of \_\_\_\_\_, could you try...

What makes you say that?

How did you get...?

Can you explain why...?

Another strategy could be...

Another way to look at it is...

I would like to add on too...

A suggestion I can offer is...

We will need to know...

You did a great job at...
